

Listen Up! Premier Mounts' New Classroom Audio Solutions Make Lessons Ring True

The first Universal Short Throw Projector Wall Mount with integrated audio revolutionizes what we expect of sound and video in the classroom

ANAHEIM, CALIF. (Feb. 23, 2010) – Even in today's technology-driven classrooms, hearing the instructor or multi-media presentations is vital to a student's performance. To ensure crystal clear audio from instructional technology devices, Premier Mounts (www.mounds.com) has introduced two Universal Short Throw Projector Wall Mounts with Audio components (UNI-STA+Audio and UNI-EXT+Audio). This product provides a cost-effective and high quality audio solution for educational institutions in a time of extremely limited budgets for technology.

Designed with two 25 Watt speakers and a 50 Watt amplifier, the UNI-STA+Audio and UNI-EXT+Audio are flexible mounting options for all of the latest short-throw projectors. A GearBox™ is integrated into the projector base plate, which securely stores away A/V and IT components, providing a clean appearance and enhanced security.

“We're thrilled to be the first to bring this product to the marketplace, because we know that it's going to make a huge difference in the way classrooms function,” said Lee Dodson, president at Premier Mounts. “Having high-quality sound is as important as having clear video, but unfortunately, we've become accustomed to the audio falling short. By adding high-quality audio to our Universal Short Throw Projector Mounts, we've created an environment where technology enhances the learning experience for all students.”

An affordable, integrated solution, the UNI-STA+Audio and UNI-EXT+Audio are the newest products in Premier Mounts' 2010 game-changing lineup. Additional features of the mounts include:

- Two 25 Watt two-way speakers with a 5-inch woofer and directional tweeters
- A 50 Watt power amplifier residing in the integrated GearBox™ enclosure
- Multiple inputs, including separate line-level mic input
- Dynamic sound range distributes the audio evenly throughout a classroom
- Extends from 7 to 27 inches from the wall (UNI-STA) and from 37 to 60 inches from the wall (UNI-EXT)

- Mounts to single or dual studs, steel studs and concrete
- Includes universal projector mount (PDS-PLUS)

The UNI-STA+Audio and the UNI-EXT+Audio will be shipping in May 2010. Pre-orders are currently being accepted. The products are available for purchase through all authorized Premier Mounts dealers and international distributors. UNI-STA+Audio MSRP: \$949.00; UNI-EXT+Audio MSRP: \$999.00.

About Premier Mounts

A global leader in developing and delivering innovative mounting solutions, Premier Mounts has been at the forefront of the A/V industry for more than 30 years.
